Company Profile

We are pleased to introduce our company manufacturer and exporter of Team Wears, Compression Wears, Leisure wears , Fitness Wears.

We have a wide range of products of all the above mentioned sports, We are willing to make items according to the customers required logos and specifications.

PRODUCTION PLANNING AND CONTROL:

We have a distinguished production setup. In order to meet the quality & service standards We have skilled and professional workforce with us. We deal all orders with great importance providing quality with accuracy up to customers satisfaction with in stipulated time.

QUALITY CONTROL MANAGEMENT:

The reputation of the company is maintained by not compromising on quality. We always maintain quality standards in our wholesale production system from arrangement of raw material to dispatching the finished goods to the customer. As it is said **"QUALITY CAN'T BE INSPECTED BUT MANUFACTURED"** We follow the same.

SOCIAL POLICY:

We at **Surpassing Industries** are committed with dedication to condemn child labor, forced labor and discrimination, improve employment conditions and compensate our employees.

We provide a safe and healthy environment for our employees.

PRODUCT LINES:

1. Team Wear
2. Leisure Wear
3. Fitness Wear

We continually strive to improve our products, therefore changes may result. All specifications and measurements in this catalogue may vary within accepted industry standards or change without notice.

Made To Order With Colour, Design, Fabrics
And Style Of Your Choice!

SUBLIMATION

Dye-Sub is the next level in creating custom garments. We digitally print your design and transfer it onto fabric using a heat press. Then we cut and sew the garment last, allowing us to achieve full coverage graphics with no color limitations. Benefits of dye sublimation include:

EMBROIDERY

Embroidery is the term used to describe the method of decorating fabrics with a needle and thread. Embroidery is most commonly used in brand items with a logo which is instantly recognizable to a consumer. Embroidery is a machine based process, where the logo is digitized into a file which could be understood by the machine before a needle and thread automatically creates the design. This means there could be some limitations when it comes to size and complexity but we will always advise if we have any concern about your logo.

PRINTING

We offer a vast range of printing methods, most commonly screen printing is used to transfer the large designs to a piece of clothing and is suited for use in quite simple designs. Using a layered stencil system through which ink is pressed, screen printing gives a unique finish. Modern techniques like digital, Sublimation printing are used to create results which are too complex for screen printing.

Customization

Digital Heat Transfer Stickers

Heat transfer printing is a newer decoration method. With heat transfer, also known as digital transfer, your custom logo or design is printed onto transfer paper and then ink is thermally transferred from the paper to your fabric using heat and pressure. Typically, this technology has been used for customizing t-shirts, hoodies and, more recently, for the application of “tagless” labels.

EMBOSSING

Embossing is a popular customization method which is achieved by applying surface treatments to the fabric which make it look like it has been gotten thicker. But in the ever changing world of fashion it is a very popular way for brands to create unique items. T-Shirts, Hoodies, Sweatshirts and Sweatpants are commonly Embossed.

PACKAGING

We offer custom packaging as well. At very affordable prices we can print your brand logo onto the packaging.

HANG TAGS

We also offer all the different shapes of hang tags to our valuable customers for their logo branding.

WOVEN LABEL

We understand that a custom neck label is an essential requirement for any brand and we have got it covered as well.
